

**RC-16-IR** *Infrared Remote*

**RC-16-RF** *Radio-Frequency Remote*

**RC-RFX-1** *RF Receiver*

# Remote Controls

The RC-16 remote control is used to control Vaux Lattis and Aris families of matrix switchers.

The RC-16-IR (infrared) version may be used directly at the switcher, or from other rooms via a wired infrared repeater system.

The RC-16-RF (radio-frequency) version utilizes a separate RC-RFX-1 receiver, providing 100-foot typical range.

**illuminated mode keys:**  
a/v, macro\*, lights\*, aux

**prog key:** special use  
**a/b key\*:** IR-learning

**menu/cursor keys\*:**
